

PITCH DECK

Team Name:
Musketeers

Introduction

Fazla Rabbi (Team Leader)

Redowanur Rahman

M. M. Kabid Hasan

Shahjalal University of Science
and Technology, Sylhet

Rules

Fazla Rabbi Shahed (Backend)

Redowanur Rahman (Frontend)

M. M. Kabid Hasan (DevOps)

Problem Statement

Patients often face difficulty in scheduling doctor appointment over phone

Common issues include

Busy phone during peak hours

Difficulty in rescheduling or canceling appointments

No Electronic Health Record for future use

Solution

Develop a user-friendly web application for booking doctor appointments

Expected Features

Doctor appointments

Easy scheduling and
cancellation options

Notifications and
reminders for
upcoming appointments

EHR (Electronic Health
Record)

Problem Statement

Renters face difficulties in finding suitable houses

Issues with current process

Lack of verified information
about landlords or properties

No centralized platform for
efficient communication

Landlords struggle to find
reliable tenants

Solution

A digital platform connecting renters and landlords

Expected Features

Community based solution	Advanced search filters (Location, Price range, etc)	Built in communication tools (Chat, Inquiries)	Virtual house design
